

910 A

Ventus makes marking easy

Ventus Print & Apply System is designed and developed by Meckelborg Oy in Finland. Due to the capability of real-time labelling the information as well as the product can easily be changed. Different attachment alternatives enable Ventus to label any product regardless of the industry your company is operating. Its modular structure gives an opportunity to customize your company a unique labelling solution with minimal costs. In addition, its small and compact size makes it easy to install the system in different applications. Ventus fully combines the cost-effective price with reliability, endurance, flexibility and user-friendliness. Ventus even speaks your own language as well as standard English.

- Easy to adapt
- Reliable
- User-friendly
- 15 memory locations for product settings
- Settings can be easily modified
- Ventus speaks your own language as well as standard English
- Label printer can be chosen to meet your needs
- Option to network and WLAN
- Metal frame

ventus 910 A

Ventus 910 A

Ventus 910 A applies the last-printed label to the moving product with a turning application head. It follows the surface of the product, which ensures that the label is carefully and thoroughly attached to the product. The structure of the application head is designed in such a way that the same head can be used to apply various-sized labels without any additional adjustments. Ventus 910 A is the solution when the labelling has to be executed with speed and accuracy.

Technical specifications

Label size:

Width 25 - 120 mm
