

1010 A

Ventus makes marking easy

Ventus Print & Apply System is designed and developed by Meckelborg Oy in Finland. Due to the capability of real-time labelling the information as well as the product can easily be changed. Different attachment alternatives enable Ventus to label any product regardless of the industry your company is operating. Its modular structure gives an opportunity to customize your company a unique labelling solution with minimal costs. In addition, its small and compact size makes it easy to install the system in different applications. Ventus fully combines the cost-effective price with reliability, endurance, flexibility and user-friendliness. Ventus even speaks your own language as well as standard English.

- Easy to adapt
- Reliable
- User-friendly
- 15 memory locations for product settings
- Settings can be easily modified
- Ventus speaks your own language as well as standard English
- Label printer can be chosen to meet your needs
- Option to network and WLAN
- Metal frame

Ventus 1010 A

Ventus 1010 A

Ventus 1010 A is developed especially for front and/or back applications. It gives you wider possibilities in real time applications. The application head moves to the desired position, which can be located either in the front or back surface of the product. As an additional feature, Ventus 1010 A can be equipped with an auxiliary blow.
